# 1JS LABELER

- The 1JS labeler has the feature and mechanical functions of 2Y and 3Y.
- Because of the large character printing bands, it produces a legible print out.
- 8 m/m by 2.5 m/m size of the each character is approximately twice as big as 2Y and 3Y.

# CASSETTE DISPENSER

Two types of cassette dispensers are available. The CD-303 loads a 30 mm width label, while the CD-453 loads a 45 mm width label. The length is adjustable from 18 mm to 36 mm. Preprinted label set in the cassette can be easily replaced in a single step according to the particular application.
